Welcome

Thank you for purchasing this MioMore Desktop software. Please read this manual carefully before using MioMore Desktop for the first time. Keep this manual in a safe place and use as your first point of reference.

Important information for using the manual

It is important to understand the terms and typographical conventions used in this manual.

Formatting

The following kinds of formatting in the text identify special information:

Convention	Type of Information
Bold	Mio components or items displayed on screen, including buttons, headings, field names and options.
<i>Italics</i>	Indicates the name of a screen.

Icons

The following icons are used throughout this manual:

Icon	Description
	Note
	Tip
	Warning

Terms

The following terms are used throughout this manual to describe user actions.

Term	Description
Click	Use the left mouse button to click a button or area on the screen.
Select	Click an item in a list or click a command from a menu.

What is MioMore Desktop?

MioMore Desktop is a suite of tools you can use to access greater functionality and product information via your computer.

MioMore Desktop allows you to:

- obtain software updates
- manage maps
- search online for local POIs
- manage custom POIs
- manage safety camera subscriptions
- report trip mileage
- transfer pictures to your Mio using Photo Album
- browse the Mio website for special offers.

Can I use MioMore Desktop with my computer?

Ensure your computer has the following *minimum* system requirements before installing MioMore Desktop:

- IBM compatible PC
- Microsoft® Windows® XP SP2 or Vista x32
- Internet Explorer 6 or higher
- DVD drive
- USB port
- Internet connection for activation.

Microsoft .NET 2.0, 3.0 and 3.5 will be installed on your computer as part of the installation of MioMore Desktop.

How do I install a map for the first time?

The most common task performed using MioMore Desktop is the installation of a new map to your Mio internal memory or memory card. Complete the following procedures:

Step	Action
1	Install MioMore Desktop on your computer.
2	Check for software updates for Mio Spirit on your Mio.
3	Install one or more maps on your Mio.

How do I install MioMore Desktop onto my computer?

Before you begin: Ensure that your computer meets the minimum system requirements for MioMore Desktop, especially:

- Ensure that *Internet Explorer 6* or higher is installed on you computer before you install MioMore Desktop, even if it is not your default browser.
- Windows XP users, ensure that *Windows XP Service Pack 2* or higher has been applied before you install MioMore Desktop.

CAUTION: When your Mio is turned on and connected to a computer, it is recognized as an external mass-storage device. Do NOT delete any files that are pre-installed on your Mio. Deleting the files can cause your Mio to crash

- Close all programs on your computer.
- Insert the MioMore Desktop Application Installer DVD into your computer DVD drive.
The MioMore Desktop installer will start.

If your computer does not automatically launch the DVD, start the installation manually:

Start → Run.

Type **D:\Install.exe** where “D” is the letter assigned to your DVD drive, then click **OK**.

- Select your preferred language for MioMore Desktop.
- Click **Install Software**, then **Install MioMore Desktop 2**.
- Follow the screen prompts to install MioMore Desktop:
 - Review and accept the Licence Agreement for MioMore Desktop when prompted.
 - Select a destination folder for MioMore Desktop when prompted.
 - When the installation is complete, click **Finish**.
MioMore Desktop will open.
- If prompted to connect your Mio to your computer, complete the following:
 - Plug the large end of the USB cable directly into a USB port on your computer (not a USB hub) and plug the small end into the **USB Socket** (🔌) on the bottom of your Mio.

Where possible, plug the USB cable into a USB port at the *back* of your computer.

- Slide the **Power** switch to the **ON** position, to turn on your Mio.
The following screen will display on your Mio:

7. If prompted to update your Mio software, follow the on-screen prompts.

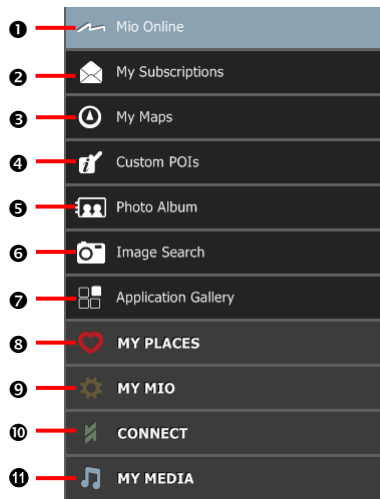

You are now ready to use MioMore Desktop to install maps to your Mio.

From now on, you can access MioMore Desktop via: *Start → All Programs → Mio → MioMore Desktop 2*

MioMore Desktop Menu

Depending on your Mio model, certain MioMore Desktop Menu options may not be available.

	Component	Description
1	Mio Online	Display the Mio website, Mio Store and other online features.
2	My Subscriptions	Information on your current subscriptions, including safety camera subscriptions.
3	My Maps	Install and manage maps.
4	Custom POIs	Application that allows you to import custom POIs.
5	Photo Album	Import and edit NavPix™ images.
6	Image Search	Search online and download NavPix™ which can be added to My Places or Mio.  This feature is powered by Flickr™.
7	Application Gallery	Customise and rearrange applications available on the <i>Main Menu</i> screen of your Mio.
8	MY PLACES	View and modify all places including addresses, Points of Interest, NavPix™, and others added using MioMore Desktop and stored on your Mio.
9	MY MIO	A collection of applications that allow you to transfer data to and from your Mio, including: <ul style="list-style-type: none">▪ Voice transfer▪ Activation▪ Mileage reporter▪ Backup and restore▪ Language▪ Recover keys▪ Options
10	CONNECT	Search for and add live POIs to My Places.

	Component	Description
11	MY MEDIA	Application used to transfer media files (.wav, .mp3, .wma) from your computer to your Mio.

General Preferences

My Mio → Options → General

Complete one of the following:

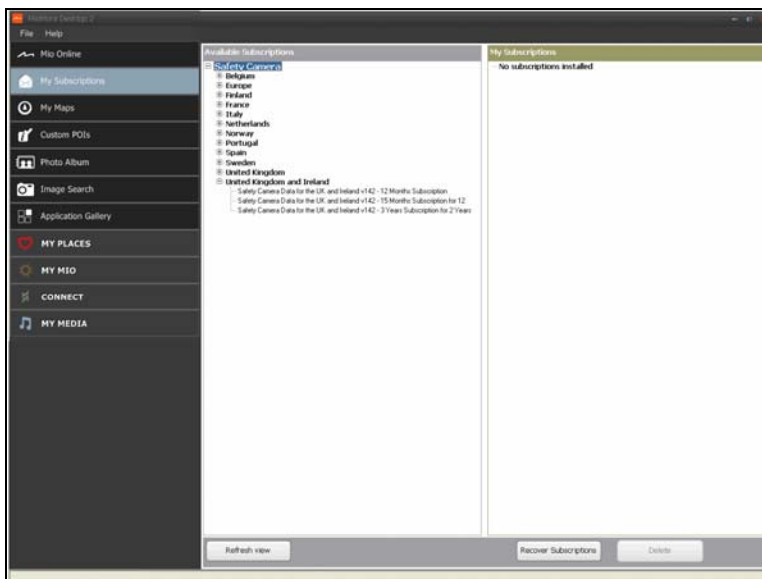

If you want to ...	Then ...
keep MioMore Desktop updated	<p>select the Auto check for updates checkbox.</p> <p>When you select this option, every time you open MioMore Desktop, any available service packs and bug fixes will be downloaded from the Mio server and applied to your Mio.</p> <p> Updating software is different from upgrading software. To upgrade MioMore Desktop, you must first purchase a new version of MioMore Desktop from a retailer, then install it on your Mio.</p>
change the units of measurement that MioMore Desktop uses	<ul style="list-style-type: none"> ▪ select or clear the Use metric units check box to change between imperial and metric units ▪ select or clear the Use decimal degrees check box to change between decimal degrees and latitude/longitude co-ordinates.

My Subscriptions

Subscription information is not available on all models and is only available in selected countries.

Your Mio contains pre-loaded subscriptions, such as safety camera and travel book information.

MioMore Desktop → My Subscriptions

For the latest subscription updates, visit: www.mio.com

Safety Camera alerts can be set to enable a warning sound or visual warning when on your route.

How do I purchase a subscription?

1. Select a type of subscription.
A list of regions will display.
2. Select a region.
A list of available subscriptions will display.
3. Select a subscription or offer, then click **Purchase an activation key from the Mio store**.
The Mio Store website will open.
4. Follow the prompts to purchase your subscription.

A product key will be sent to you via email when you have subscribed. You will need to use this product key to activate your subscription.

How do I activate my subscription?

MioMore Desktop → My Mio → Activation

1. Enter your product key.
2. Follow the prompts to activate your subscription.

How do I update subscriptions on my Mio?

The My Mio section will display a list of subscriptions already installed on your Mio:

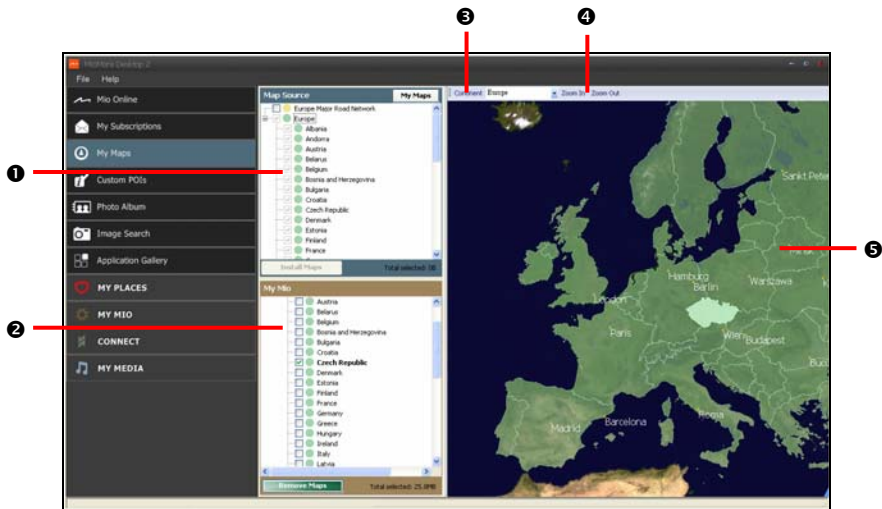

Icon	Description
Red	Expired subscriptions. <ul style="list-style-type: none">▪ right click to purchase a new subscription.
Yellow	Available subscriptions. <ul style="list-style-type: none">▪ right click to update and purchase new subscription.
Green	Active subscriptions. <div> No updates are available for these subscriptions.</div>

My Maps

My Maps allows you to install new maps, remove maps from your Mio and purchase new maps.

MioMore Desktop → My Maps

Click **View Installed Maps**.

	Component	Description
1	Map Source	A list of maps on the DVD or available for purchase via the Mio Store website.
2	My Mio	A list of maps installed on your Mio.
3	Continent	A drop down list of continents that have maps available for your Mio.
4	Zoom In / Zoom Out	Click to zoom in or out of the globe.
5	Globe	A map of the world or selected continent indicating the maps: <ul style="list-style-type: none">on the current DVD,installed on your Mio or memory card, oravailable from Mio.

How do I download and install free map updates?

Occasionally Mio will offer you free map updates. If a free map update is available and your Mio is connected to your computer, a message will display when you first start MioMore Desktop.

 The message can be disabled from displaying by selecting **Suppress Free Map Offer messages** from the message box or from: *My Mio* → *Options* → *My Maps*

How do I download a map update immediately?

3. Select the map updates that you would like to download, then click **Download**. Your default web browser will open and prompt you to save the map update files.
4. Navigate to your *Loadable Maps Location* and save the files.

The default Loadable Maps Location is the *My Maps* folder in your *Documents* folder. You can change the location from: *My Mio* → *Options* → *My Maps*

How do I download a map update at a later time?

- Click **Close** to close the *Free Map Updates* window.
- When you are ready to download the map update, click **My Maps**.
A list of available map updates will be displayed under **Free to download** in the **Available Downloads** section.
- Select the map update that you would like to download, then click **Yes**.
Your default web browser will open and prompt you to save the map update file.
- Navigate to your *Loadable Maps Location* and save the files.

The default Loadable Maps Location is the *My Maps* folder in your *Documents* folder. You can change the location from: *My Mio* → *Options* → *My Maps*

How I do I install a map update that I have downloaded?

- Click **My Maps**.
A list of downloaded map updates will be displayed in the **Loadable Maps** section.
- Click **Open** next to the map update that you would like to install.
The globe will display. The free maps that you downloaded are **yellow**.
- Click the map you want to install to your Mio.
The map will change colour to a brighter **yellow** to indicate it has been selected.
 - To deselect a map, click the map again.

You may need to install multiple maps to cover the required geographical area.

- Select the destination media for the selected map, then click **Transfer Now**.
The selected map will be installed and change colour to **green**.
- To use your Mio, disconnect the USB cable.

WARNING: Do not disconnect the USB cable from the Mio USB Socket until the Globe has refreshed, and the installed map or maps have changed colour to **green**.

How do install maps onto my Mio?

Your Mio comes with one or more pre-activated maps.

You can install maps from the DVD that came with your Mio or one that you have purchased separately to a memory card or your Mio internal memory; however you may need to purchase a Map Product Key to activate maps on the DVD that came with your Mio.

- Open MioMore Desktop, if it is not already open:
Start → *All Programs* → *Mio* → *MioMore Desktop*
- Click **My Maps**.
The *My Maps* application will display.
- Insert a Map DVD into your computer DVD drive.
 - The maps already installed on your Mio are **green**.
 - The maps that are unlocked and ready to be installed to your Mio are **yellow**.
 - The maps that require activation before being installed to your Mio are **red**.
 - The maps that are available for purchase from Mio are **blue**.

If your computer opens Windows Explorer when the DVD is inserted, close the Windows Explorer window.

4. Complete the following:

If the map to be installed is ...	Then ...
yellow	go to step 7.
red	the map needs to be activated via the Internet before it can be installed; continue to step 5.

5. If you connect to the Internet via a dial-up connection, connect to the Internet now.
6. Follow the prompts to activate your Map Product Key, including:
- Enter the Map Product Key when prompted.
 - Your computer will connect to the Internet and activate your Map Product Key.
 - When activation has completed, the map will change colour to yellow; continue to step 7.
7. Click the map you want to install to your Mio.
The map will change colour to a brighter yellow to indicate it has been selected.
- To deselect a map, click the map again.

You may need to install multiple maps to cover the required geographical area.

8. Complete the following:

If you want to ...	Then ...
install a yellow map	go back to step 7.
install a red map	the map needs to be activated via the Internet before it can be installed; go back to step 5.
install the selected maps to your Mio	continue to step 9.

9. Select the destination media (Mio internal memory) for the selected maps, then click **Transfer Now**.
The selected maps will be installed and change colour to green.
10. To use your Mio, disconnect the USB cable. You may need to manually reset your Mio.

WARNING: Do not disconnect the USB cable from the Mio **USB Socket** until the **Globe** has refreshed, and the installed map or maps have changed colour to green.

How do I remove maps from my Mio?

1. Click **My Maps**.
The *My Maps* application will display.
2. From the *My Mio* panel, select the check box next to the map you want to remove.
3. Click **Remove Maps** to remove the selected maps.
4. Confirm that you want to remove the selected map when prompted.
The map is removed from your Mio.
You can reinstall these maps at any time via MioMore Desktop.

My Maps Preferences

My Mio → Options → My Maps

Complete one of the following:

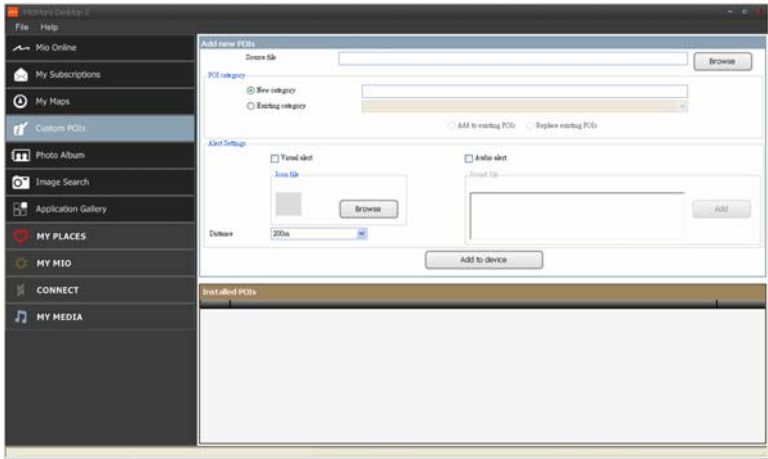

If you want to ...	Then ...
change the location of where downloaded maps and map updates will be saved	<ul style="list-style-type: none">▪ click Change.▪ select a location for your NavPix™ library.▪ click Save or OK. The warning message will display and you will be prompted to confirm your action. <p>Your NavPix™ library is moved to the new location.</p>
prevent offer messages from displaying	<ul style="list-style-type: none">▪ select the Suppress Free Map Offer messages check box.

Custom POIs

Depending on your Mio model, some Custom POIs features may not be available.

The Custom POIs (Points of Interest) application allows you to create or import your own POI files. These are called custom POIs. Unlike preinstalled POIs, custom POIs can be removed from your Mio and can have audio as well as visual alerts associated with them.

MioMore Desktop → Custom POIs

How do I install custom Points of Interest?

 Various POI files are available for download free or by subscription from third-party websites¹. Ensure that downloaded files are in .csv (Comma Separated Values) format.

1. In the **Add new POIs** section, click **Browse** to select a source file. The *Open* dialog box will open.
2. Select the file from your local or network drive, then click **Open**.
3. From the **POI Category** section:

If you want to...	Then...
use an existing custom POI category	select the Existing category option, then select a type from the drop down list.
create a new custom POI category	select the New category option, then type a name for the POI category.

¹ Mio is not responsible for the content or accuracy of the information or the reliability or availability of these websites. The use of information regarding safety camera locations may be subject to local laws in the country of use. You are responsible for checking that you can use the information in your country or in the country where the information will be used.

4. Set Alert setting as required:

If you want to...	Then...
enable a visual warning when a POI of this category is in close proximity	select the Visual alert check box.
select an icon to display on the map screens for POIs of this category	<p>Click Browse to select the icon file from your local or network drive. When you have located the icon file, select it and click Open.</p> <p>The icon file must be a bitmap (.bmp) graphic with a minimum size of 6x6 pixels and a maximum size of 32x32 pixels.</p> <p> If you do not select a custom icon, a default icon will display.</p>
select the distance from a POI of this category at which the visual warning should display or the warning chime should sound	<p>select the distance from the Distance box.</p> <p> To change the units used to measure distance for this POI category, from the tools menu click on options and from the general option select Use metric units check box.</p>
enable a warning sound when a POI of this category is in close proximity	select the Audio alert check box.
select a custom sound alert file to play when a POI of this category is in close proximity	<ul style="list-style-type: none">▪ Either select a sound file from the list, or▪ Click Add to select a sound file (.WAV format) from your local or network drive. When you have located the file, select it and click Open. <p> If you do not select a custom sound file, a default sound alert will play.</p>

5. Click **Add to device** to add the POI to your Mio.

 Each file corresponds to a POI category; for example, Hotels.csv will be listed in your Mio as the Hotels category.

How do I delete a Custom POI file/category from my Mio?

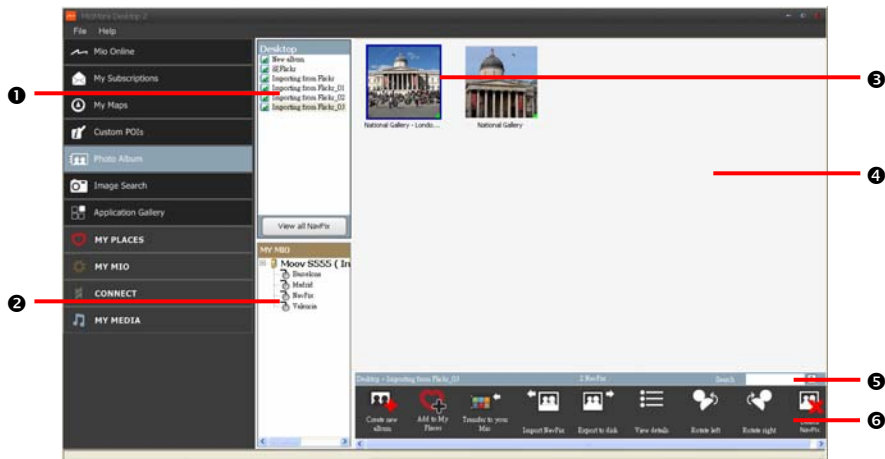

1. In the Installed POIs section, click **Delete** next to the file name.
The file is removed from the list, but is not yet deleted.
2. Accept the warning message.
The selected file/category is deleted.

Photo Album

Depending on your Mio model, certain Photo Album features may not be available.

Photo Album is a MioMore Desktop application which allows you to copy, delete or move pictures or albums between the **NavPix™** library on your Mio and the **NavPix™** library on your computer.

MioMore Desktop → Photo Album

	Component	Description
❶	Desktop albums	Displays a list of all albums stored in the NavPix™ library on your computer. <ul style="list-style-type: none">Click an album to display its contents in the Album display area.Click View all NavPix™ to display all pictures stored in the NavPix™ library on your computer.
❷	My Mio albums	Displays a list of albums stored on the Mio internal memory and on the memory card if one is inserted. <ul style="list-style-type: none">Click an album to display its contents in the Album display area.
❸	Selected picture	When a thumbnail is selected it displays with a blue border.

❼	Rotate left	Rotates the selected NavPix™ 90° to the left.
❽	Rotate right	Rotates the selected NavPix™ 90° to the right.
❾	Delete NavPix™	Click to delete the selected NavPix™ .

How do I transfer pictures from Photo Album to my Mio?

You can transfer pictures from your computer to your Mio. You can import any JPEG (.jpg) into Photo Album, add or edit GPS information, and then copy the picture to your Mio.

1. From the **Toolbar** section, select **Import NavPix™**.
The *Open* dialog box will display.
2. Select a **NavPix™** from a folder on your computer and click **Open**.
Thumbnails of the **NavPix™** will display in the **Album display area**.

 You can also drag and drop a **NavPix™** from a folder on your computer to an Album on your MioMore Desktop.
3. Either click and drag the required **NavPix™** to an album in the **Mio albums** section, or click the **Transfer to your Mio** icon on the toolbar.

 If you have transferred a **NavPix™** with GPS coordinates you can then navigate to where the picture was taken.

How can I view and edit pictures or albums on my computer?

If you want to ...	Then....
rotate a picture to left	<ul style="list-style-type: none"> select the picture from the Album display area. click Rotate left on the toolbar.
rotate a picture to right	<ul style="list-style-type: none"> select the picture from the Album display area. click Rotate Right on the toolbar.
view the picture details	<ul style="list-style-type: none"> select the picture from the Album display area. right-click and select View Details, or click View Details on the toolbar.
edit GPS information	<ul style="list-style-type: none"> select the picture from the Album display area. double click on the picture or click View Details on the toolbar. <p>The following information will display:</p> <p>Name Latitude and Longitude Description</p> <ul style="list-style-type: none"> Edit the details you want to modify. Click OK to save the changes.
delete a picture	<ul style="list-style-type: none"> select the picture from the Album display area. right click and select Delete or click Delete on the toolbar.

What else can I do with pictures and albums on my computer?

From the **NavPix™** library on your computer, you can:

- add a picture to another album
- remove pictures from an album
- add a **NavPix™** to My Places
- view and edit details of a selected picture
- upload pictures to Flickr™
- export to disk
- export pictures to Google Earth™
- search for pictures
- view all pictures in the library

If you want to ...	Then....
add a picture to another album	<ul style="list-style-type: none"> in the Desktop albums section, select the album containing the NavPix™ you want to include in another album select the NavPix™ then drag it to the other album. <p> The selected NavPix™ is included in the new album, but is not moved, i.e., one instance of the NavPix™ in the library may be included in multiple albums.</p>

add a NavPix™ to My Places	<ul style="list-style-type: none"> in the Desktop albums section, select the album containing the NavPix™ you want to add to My Places. select the NavPix™, right click and select Upload to My Places.
view and edit picture details	<ul style="list-style-type: none"> select the picture then click the View Details icon on the toolbar. edit the fields as required.

If you want to ...	Then....
upload picture to the Flickr website	<ul style="list-style-type: none"> in the Desktop albums section, select the album containing the NavPix™ you want to upload to the Flickr website. select the NavPix™, right click and select Upload to Flickr. <p> You need a Flickr account to upload NavPix™. To create a Flickr account visit www.flickr.com.</p>
save a picture to your computer	<ul style="list-style-type: none"> select the picture from the Album display area. right click and select Export to disk or click Export to disk on the toolbar. navigate to a folder on your computer where you want to save the NavPix™.
export to Google Earth™ (only NavPix™ with GPS coordinates can be exported to Google Earth)	<ul style="list-style-type: none"> in the Desktop albums section, select the album containing the picture you want to export to Google Earth. select the NavPix™, right click and select Export to Google Earth. navigate to a folder on your computer to save the file and then open it in Google Earth. <p> You need to install the Google Earth software on your computer to be able to view the file you have created. You can download Google Earth from earth.google.com.</p>
search for other NavPix™	right-click on the desired NavPix™ and select Search for NavPix™ near this .
view all pictures in the library	click View all pictures at the bottom of the Desktop album section.

Photo Album preferences

My Mio → *Options* → *Photo Album*

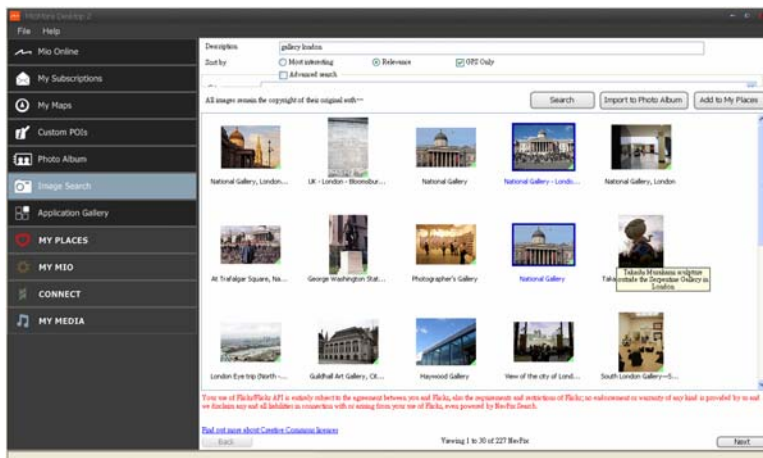

Complete one of the following:

If you want to ...	Then....
change your NavPix™ location on your computer	<ul style="list-style-type: none"> click Change. select a location for your NavPix™ library. click Save or OK. The warning message will display and you will be prompted to confirm your action. <p>Your NavPix™ library is moved to the new location.</p>
receive a warning message before deleting an image from your device	select Warn me when permanently deleting a NavPix™ from my Mio check box.
receive a warning message before deleting an image from your NavPix™ library	select Warn me when permanently deleting a NavPix™ from my library check box.
create a new folder every time you import new photos	select the Import photos to a new album checkbox.
view NavPix™ when on a route	select the Show NavPix™ on map checkbox.

Image Search

Image Search is a MioMore Desktop application powered by Flickr™ allowing you to download photos and import them to Photo Album. You can then upload the photo to the Flickr website, transfer photos to your Mio, export pictures to Google Earth or search for other **NavPix™** near the longitude and latitude of your **NavPix™**.

MioMore Desktop → Image Search

How do I download NavPix™ from the internet?

1. In the **Description** field enter a search description for the image you are looking for.
2. Select one of the **Sort by** options.
3. Click **Search**.
Thumbnails of the **NavPix™** will display in the **NavPix™** display area.

You can narrow your search by selecting the **Advanced search** check box and then selecting a city from the drop down list or by entering latitude and longitude details.

How do I import NavPix™ to Photo Album?

1. Select a picture or group of pictures you want to add to your Photo Album.
2. Click **Import to Photo Album**.
A new album is created in the **Desktop** album section of Photo Album.

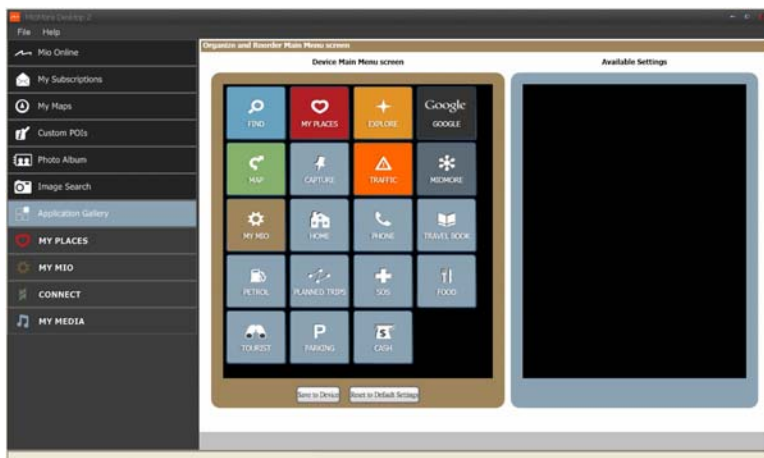

How do I import NavPix™ to My Places?

1. Select a picture or group of pictures you want to add to your My Places.
2. Click **Add to My Places**.
The selected image is added to My Places.

Application Gallery

Application Gallery is a MioMore Desktop application that allows you to add, remove and rearrange applications on the *Main Menu* screen of your Mio.

MioMore Desktop → Application Gallery

How do I rearrange Main Menu applications on my Mio Main Menu?

1. Select any application from the **Device Main Menu** section.
2. Drag the application to the position that you would like it to appear on your Mio.
3. Click **Save to Device**.
The order of the *Main Menu* screen is saved on your Mio.

Click **Reset to Default Settings** to restore the *Main Menu* screen to the factory default order.

How do I remove an application from my Mio?

The following applications cannot be removed from your Mio:

1. Select any application from the **Device Main Menu** section.
2. Drag and drop the application to the **Available Settings** section.
3. Click **Save to Device**.
The application is removed from the *Main Menu* screen on your Mio and is no longer accessible.

How do I add an application to my Mio?

1. Select any application from the **Available Settings** section.
2. Drag and drop the application to the **Device Main Menu** section.
3. Click **Save to Device**.
The application is added to the *Main Menu* screen on your Mio.

My Places

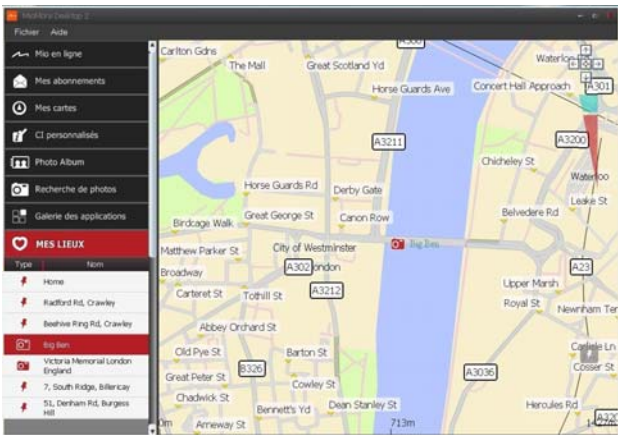

My Places is a MioMore Desktop application that allows you to use GOOGLE Maps™ to view all places that you have saved on your Mio.

 Make sure you have an active Internet connection for this feature.

My Places includes saved addresses, captured journeys and sound, Points of Interest, **NavPix™**, and other locations. You can select, modify and delete places. You can also add locations from Connect, Photo Album and Image Search to My Places.

 You can install a maximum of 99 locations on your Mio via My Places.

MioMore Desktop → My Places

How do I sort My Place locations?

You can sort My Place locations by type and name:

If you want to ...	Then ...
sort My Place locations by type	click Type on the My Places panel.
sort My Place locations by name	click Name on the My Places panel.

How do I edit a location name or notes in My Places?

1. From the **My Places** panel select the location you want to edit.

The backup will be restored to your Mio.

How do I delete a backup?

1. Select the backup from the list that you would like to delete.
2. Click **Delete**, then click **OK**.
The backup will be deleted.

Language

You can change the language for MioMore Desktop.

Simply select your preferred language.

Recover keys

Make sure you have an active Internet connection for this feature.

In case you lose the license files for your Mio, you can recover them using this feature.

Use this feature before you re-install the maps.

My Mio → *Recover keys*

Follow the prompts to complete the process.

Connect

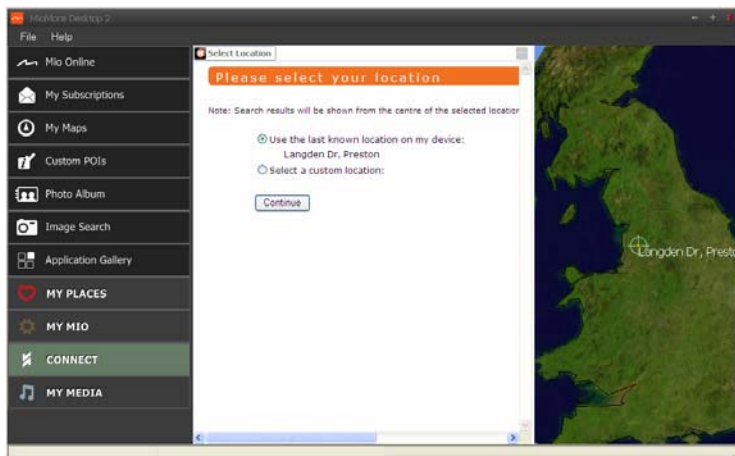

Connect is not available for all models.

Connect is a MioMore Desktop application that allows you to search and install local POIs information from your computer to your Mio. POI locations will be shown in My Places.

 Before you begin, ensure your Mio is correctly plugged into your computer: Plug the large end of the USB cable directly into a USB port on your computer (not a USB hub); plug the small end into — on the bottom of your Mio.

 Make sure you have an active Internet connection for this feature.

MioMore Desktop → Connect

How do I search for a POI using Connect?

You can either search using the last known location on your Mio, or search for a new location by completing the following:

1. From the country drop down box, select a **Country**.
2. From the **Region/State** drop down box select a region or state if required.
3. In the **Place name** box, enter the first few letters of a city and then select your preference.
4. Click **Continue**.
The *Available Services* page will display.
5. Select your preferred search service.
The selected services page will display.

 Depending on the country you are navigating, the available search services may vary.

6. Enter your search criteria, then click **Search**.
The *Select search method* page will display.

 For some countries you are required to accept the terms of use.

7. Select your preferred search method, then click **Search**.
A list of search results will display.

8. Click  next to the POI you want to install to your Mio.
The POI will be added to My Places.
9. Repeat step 8 to install more POIs to your Mio.

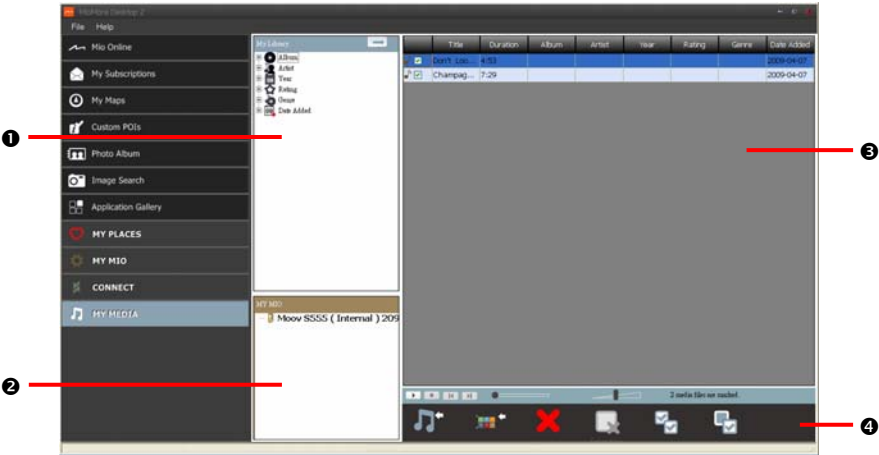

My Media

My Media is not available for all models.

My Media is a MioMore Desktop application allowing you to import music (.wav, .mp3, .wma) and video files from your computer to your Mio.

Before you begin, ensure your Mio is correctly plugged into your computer: Plug the large end of the USB cable directly into a USB port on your computer (not a USB hub); plug the small end into on the side of your Mio.

MioMore Desktop → My Media

	Element	Description

Speed Limit

Mio products are designed to be used as an aid to safer driving. Mio does not condone speeding or any other failure to comply with your local traffic laws. It is your responsibility to drive within the posted speed limit at all times and to drive in a careful manner. Mio accepts NO liability whatsoever for you receiving any speeding fines or points on your license through using this device. Mio does not guarantee the accuracy of the data contained within this database either expressed or implied. In the event you receive a fine or any other penalty for speeding or contravention of any traffic law, or are involved in an accident, Mio is not responsible for any damages of any type. In some countries the data information regarding speed limits may conflict with local law and/or regulations. It is your responsibility to make sure that your use of the data is in compliance with local laws and/or regulations. Usage is at your own risk.

Safety Camera POIs

Mio products are designed to be used as an aid to safer driving. You can receive messages to alert you to locations of safety cameras, which will enable you to monitor your speed through these areas. Mio does not warrant that all types and locations of safety camera data are available, as cameras may be removed, relocated or new cameras installed. Mio does not condone speeding or any other failure to comply with your local traffic laws. It is your responsibility to drive within the posted speed limit at all times and to drive in a careful manner. Mio accepts NO liability whatsoever for you receiving any speeding fines or points on your license through using this device. Mio does not guarantee the accuracy of the data contained within this database either expressed or implied. In the event you receive a fine or any other penalty for speeding or contravention of any traffic law, or are involved in an accident, Mio is not responsible for any damages of any type. In some countries the data information regarding safety or speed cameras may conflict with local law and/or regulations. It is your responsibility to make sure that your use of the data is in compliance with local laws and/or regulations. Usage is at your own risk.
